Booking the State Field Cootamundra

The ANSW State Field Cootamundra is open for bookings.

Bookings for the State Field Cootamundra are made using the Booking Form accessed via the ANSW website. You can also check the State Field Calendar and review the State Field Ops Manual, all available at State Flying Field Cootamundra.

The new solar/battery power system with automatic generator backup requires no user intervention and provides a reliable and QUIET source of 24/7 power. All that we ask is that you turn (switch at the charging bench) the freshwater pump on when you arrive and off when you depart.

You will be provided a single access code for the main gate, shower, toilets, compound side fence and kitchen rear door.

The kitchen is available to everyone to use individually or self-catered. The booking party is responsible for organising any self-catering.

Please give us a couple of days' notice as we need to coordinate field maintenance, mowing and watering with bookings.

Book and enjoy.

The ANSW Executive

From the President

Dear Members,

A brief update on the recent Newsletter survey and the calls for nominations for the Advisory Subcommittee Chairperson and Secretary and the ANSW Ordinary Committee Members.

Newsletter Survey

A recent survey was undertaken asking the members, '*Should the ANSW Newsletter be discontinued and all Newsletter content be managed on the ANSW Website*'.

Thank you to all those members who responded to the survey question and to those who by return email provided comments and suggestions.

This topic will be discussed at the upcoming 10th November ANSW 4th Quarter Committee Meeting, and the survey results and comments/suggestions will inform the discussion.

Call for Nominations for the ANSW Advisory Subcommittee Chairperson and Secretary

This call for nominations closed on the 30th October 2026 and no nominations were received.

This topic will be discussed at the upcoming 10th November ANSW 4th Quarter Committee Meeting.

These positions will remain open for nominations until the next AGM where they will be spilled and opened for nominations.

Call for Nominations for ANSW Ordinary Committee Members

This call for nominations closed on the 30th October 2026 and no nominations were received.

This topic will be discussed at the upcoming 10th November ANSW 4th Quarter Committee Meeting.

These positions will remain open for nominations until the next AGM where all Ordinary Committee Member positions will be spilled and opened for nominations.

Kind regards,

Mark Penno, ANSW President
On behalf of the ANSW Committee
president@nswaeromodellers.org.au

Extraordinary General Meeting
8th October 2026
Adoption of a New 2026 Constitution
Minutes

Aeromodellers NSW Inc

ABN 12 088 684 090

Venue: Zoom Video Conference
Thursday 8th October 2026

Meeting Opened: 7.30pm

Chairman: Mark Penno – ANSW President

Meeting Rules/Protocols:

- Up to two delegates per club.
- One voting delegate for each club comprising 10 or more senior members.
- Other attendees are welcome as visitors but not participating unless invited to do so by the Chair. All visitors must be affiliated to ANSW unless specifically invited to attend by the ANSW Executive.
- Please identify yourself in the Zoom with your full name & club.
- Please keep video on so that all participants can be seen.
- Please raise a hand if you'd like to speak.

Roll Call – meeting attendees

Executive/ Management Committee via Zoom online:

Mark Penno – President ANSW
Bob Tomlinson – Vice President ANSW
Mark Purvis - Secretary ANSW
Jim Wilks - Assistant Secretary ANSW
Dave Lewis - Registrar ANSW
Daryl Woolfe - ANSW Safety Officer
David Bolstad - ANSW CFI
Trevor Smith – ANSW Newsletter Editor

Voting Delegates:

Note- Quorum. I.A.W. ANSW Constitution 14 June 2026. Part 4- Meetings, section 6, sub clause (a) is five (5) members clubs and d) The persons constituting a quorum are those competent to transact and vote.

Apologies: Steve Norrie ANSW Treasurer

The Chairman opened the Meeting

The attendees were briefed on how the meeting would be conducted:

1. Motion moved by the Chairman,
2. The floor will be opened for those wishing to argue against the adoption of the new Constitution (10 minutes allocation),
3. Reply from the ANSW Committee (10 minutes allocation),
4. Zoom Poll voting by the eligible delegates with the Yes/No vote numbers declared,
5. Shared screen presentation of the proxy votes received to enable attendees to confirm the number of Yes/No votes,
6. Announcing final results – a final tally of Zoom Poll votes and proxy votes.
7. Meeting closing remarks by the Chairman, and
8. Meeting closed.

Motion moved by the Chairman

The motion was displayed on screen and read out by the Chairman.

> **Motion: That the new ANSW 2026 Constitution & associated By-Laws as distributed in an email dated 15th Sept 2026 be adopted.**
>
> **Moved:** Mark Penno - Chairman **Seconded:** Geoff Jones (SNMAC)

Zoom Poll

The Zoom Poll was initiated by the Chairman.

The Chairman screen shared the Zoom Poll results:

Yes: 19

No: 0

Abstained: 2

One member who's PC 'glitched' during the poll voted by show of hand after the poll

Therefore, total votes:

Yes: 20

No: 0

Abstained: 2

Proxy Votes Declared

The Chairman screen shared the individual proxy votes to enable attendees to note the voting preference on each proxy vote.

Yes: 10

No: 0

Final Results

The final results are:

Zoom Poll and late vote - Yes: 20, No: 0 Abstained: 2

Proxy Votes - Yes 10, No 0

Final Result - Yes 30, No 0

Motion: That the new ANSW 2026 Constitution & associated By-Laws as distributed in an email dated 15th Sept 2026 be adopted. **Carried**.

Chairman Closing Remarks

The Chairman thanked the Committee for their efforts over the past six months in working with the members and lawyer's to achieve a compliant constitution.

He also thanked the voting delegates for their continued support of ANSW and their assistance in the implementation of the new constitution.

There being no further business, the meeting was declared closed: 7.48pm

The above minutes are a true and accurate record of the Extraordinary General meeting held at 7.30pm via Zoom on the 8th October 2026.

Mark Penno
President Aeromodellers NSW
8th October 2026

Mark Purvis
Secretary Aeromodellers NSW
8th October 2026

Post Extraordinary General Meeting Update: The new 2026 Constitution was submitted to NSW Fair Trading on the 9th October 2026 for registration.

On the 12th October 2026 ANSW received correspondence from NSW Fair Trading (dated 12th October 2026) advising:

> 'The application has been reviewed and appears, on its face, to comply with the requirements of the *Associations Incorporation Act 2009* (Act). Accordingly, the change to the objects/constitution has been registered today and takes effect from the date of this letter.'

We can now move forward with the assurance that our association is operating under a compliant, registered Constitution, that provides an appropriate framework for governance and protection.

Safety Matters

The more things change….

G'day All,

I recently read a letter from a deceased member of my club to the members in regard to giving a helping hand.

I could not help but notice the continuing similarities in the writings and how nothing had, by and large, changed in that regard.

Members are still willing to help out with modelling and getting people up and flying but not so helpful when it comes to matters of committees and general maintenance around the field.

This letter was written nearly thirty years ago. It was written from a pure observational point of view, from a long-term member of the club at the time.

No, this is not having a go at people for not doing things. But a simple reflection on how life and these days, the cost of doing things gets in the way of getting other things done.

People are quite willing to lend a hand if they happen to be at the field when something is going on. I find that everyone will pitch in, without being asked if work is being done right at that moment. I see it all the time with the sporting clubs that I am now, and have been, involved with over years. And with the cost of fuel these days, I can fully understand people from one hundred plus kilometres away not being able to justify going to a working bee for a few hours.

I do quote a famous rugby league coach, Wayne Bennett, when he said, “I always ask my players and staff, not to come to me with a problem, but come to me with the solution.” Do I think that fits our mantra? You bet I do!

So be patient with those who can get the work done, if it takes a bit of time to get all the jobs done, then so be it, and be understanding of those who cannot physically help or have other things to do. Not everyone is physically capable as we get older. It is a fact of life. I understand the term 'grown up’. Yes, I now groan when I get up! And pop and creak and … you all get the picture.

Remember to make mental health as important as physical wellbeing.

Be sure that a club member at a working bee is operating equipment that they are familiar with. If a member has never used a ride on mower, should they be using one? NO!!!!!! Not without being instructed on how to do so. Six people a year, on average, die on ride on lawn mowers in NSW alone.

90% of all tractor roll overs happen on flat level ground. If you are using a hydraulic post driver...do not stick your head in where the monkey is to see what is happening!! Usually, one drop is all that is needed to be sure that you will need to worry about the second or even third drop.

And do not get me started on those horrible things, chainsaws! Did you all know that these wretched things were first invented to help with, of all things, childbirth. The mind runs wild with how that was supposed to work.

If your club is using this type of equipment, make absolutely sure that the operator knows the machine and the task that is at hand.

Finally, do not forget the sunscreen, even if the SPF factors might be wrong....Just use it liberally and often.

All of this is as important as not sticking your finger in the wrong place. Stop, think, do!

As a funny PS, I received a photo from a club after last month’s snake warning. What was the photo of???? A snake having a very easy time sunning itself under their pit shelter. Timely or not?

Look after your mates.
Regards and respect
Daryl Woolfe
ANSW Safety Officer.

Club News & General Interest

Lismore Model Flying Club October Fun Fly Weekend

October 10/11th saw the running of our Fun Fly weekend. Saturday morning started with an egg and bacon breakfast for the early starters at the field. The day was looking very glooming with a strong breeze; however this soon settled and allowed all attending to join in a range of social, fun flying options. I did not count numbers but would like to thank all who made the effort to join us from the Lower Tweed Model Flying Club with several members also choosing to camp at the field Saturday night.

First up for Saturday morning was a Cub session. We managed six in the air at once with a range of Top Gun style fly pasts, coordinated touch and go's, and demonstrations of extremely slow flight. To the point that Ben took off several times, controlled his backward flight with the breeze, and landed behind where he took off!

So how much fun can you have with these? Seriously, there is quite a range to choose from as a cost-effective model to learn on, perfect a range of manoeuvres, or simply get together with a few friends and coordinate circuits, touch and go's and challenge each other to slow flight, full flaps, and short take off and landings.

The cubs were put away for an hour or so and we moved onto control line flying. At this point the wind had completely dropped, and the freshly mown control line circle was put to good use. This was a control line only session which allowed us to move the spectator area out to the pilot's box for a better view of the action. The run time on a couple of the models was significant, and pilots swapped around mid-flight with a great range of aerobatic manoeuvres on display. The spectators were impressed with the low-level pullouts done by Ben and Howard. The pilots both assure us that they were planned manoeuvres!

Flying continued after the control line session with great displays of 3D and precision flying along with several gliders taking to the sky. Afternoons at the field often provide the best conditions and Saturday afternoon did not disappoint with everyone taking to the skies.

Happy hour saw many stories being told as the shadows moved across the field. Michael, Wayne, Howard and I stayed overnight and decided to pick up pizzas from Earth Oven Wood Fired Pizzas on Keen Street. This proved to be a great choice, and we opted to setup the brazier for a fire which helped us to solve a few of the world's problems and most importantly, talk about plans for new models, getting old engines running again and future themed events for our club. Early warning that the January event will be an Old Timer (models that is) event. Time to dust off a few models or perhaps build something!

We awoke to completely clear skies and the BBQ was fired up again for egg and bacon rolls. It wasn't long before we had cars parked three rows deep in the car park and a great range of models lined up. Many pilots took advantage of the perfect weather to get some social flying in before the October eGlider Competition got underway.

A couple of Scanners took to the air with Bruce and Clive showing what a great model the Scanner is even with very different battery and motor setups. The Scanner is a classic low wing sport model that was often the second model that flyers moved to after going solo on a

high wing trainer. The flight characteristics of this model saw it become incredibly popular with literally thousands sold in Australia since its inception in 1998. Starting life as a .40-.46 glow model, it has now become a very efficient electric model that is still used in pylon and circuit racing events and is available from shops such as RCMA and Model Flight.

The eGlider Competition started right on time at 10am, as the day started to turn the heat on. The weather statistics showed 34 degrees at the airport and Ben can tell you it felt warmer in the pilot's box! We will be asking for a few volunteers to help setup for the November eGlider competition. The shade tents will be needed and plenty of water will be on hand for the scorers/helpers. Thank you to both Scott and Ben for putting together yet another successful eGlider competition.

Several Lismore Wonders were on display, and I will admit defeat in the combat display with my streamer well and truly taken off by Clive's model combined with his skilled handling of these incredible models.

The BBQ was ready for the end of the eGlider competition and was well received by all who attended. This was a club sponsored BBQ to say thank you to the large number of volunteers who contributed to the site preparation and assembly of our new garage. Several members and visitors chose to donate a few dollars on the day, and this is always appreciated. Thank you to Bruce and Andrew who stepped up to help with the BBQ. All burners running added to the heat of the day, however the good supply of sausages, bacon, onion combined with a range of salads was enjoyed by all.

Weekends such as these are successful due to the efforts of many volunteers. From field preparation through to rubbish removal, eGlider competition, BBQ, pizza pickup, bags of firewood and a great turnout all contributed to an event that should remain on our calendar in the future. As many people commented, the weather forecast is often wrong, and this was certainly the case with Saturday. The heat on Sunday afternoon saw the control line pilots opt to sit out all let the afternoon finish with social flying in between time in the shade and a few cool drinks!

Thank you to all who attended.

Peter Whitely
LMFC President

Club News & General Interest articles are now also on the ANSW Website under Club News. Check it out here.

For Sale

1968 McCoy 049 Engine still in box

$50 + postage

Rick 0497875538

For Sale adds can now also be placed on the ANSW Website, have a look here

Sell your aeromodelling equipment through the ANSW Newsletter and the ANSW Website

Do you want to sell that no longer wanted, but well-loved aeromodelling equipment, then why don't you give your fellow ANSW members first shot at it.

Before placing your add in the well-known Internet sites, your welcome to place your add in the ANSW Newsletter and on the ANSW Website. And it's free.

What do you need: A few photos, a few words, contact details and of course price + freight/pickup/etc.

Fit it onto one page, so the more words the less pictures and obviously the more pictures the less words.

Unfortunately, the ANSW Constitution only permits the ANSW Newsletter and ANSW Website to directly advertise for members, so no businesses, wholesalers or retailers please.

However, if you have an event sponsored by a business, wholesaler, retailer, etc, then you can include their name on you poster and in your event report and these can be included in the Newsletter and on the Website, and the poster can be included on the website.

CONTROL LINE FUN FLY

Saturday 14th November 2026
8.30 – 4pm flying available 13th & 15th

LAKE MACQUARIE MINIATURE AIRCRAFT CLUB

53 Griffen Rd, Teralba, NSW 2284

As our last fun fly was so successful, we decided we should do it again!!

There will be 4 separate well prepared grass flying circles for aerobatics, general flying, a racing circle marked out for 27 Goodyear and phantom racing and a combat circle.

We will be running 27 Goodyear and the phantoms, (rules on the club web site)

BBQ, tea & coffee will be available, covered meeting & viewing areas.

The aerobatic circle is suitable for 70' lines with a concrete pilot's centre.

NEW, Sunday 15th we will be having a scored stunt flying day, flyer to nominate class.

The focus is on an enjoyable get together with the Phantoms and Goodyear as entertainment for patrons, there will be raffle for a 20L drum of methanol. We are hoping this will be as enjoyable as last year.

Note: LMMAC has diethyl ether available for diesel engines for sale at the field in 500ml & 1 litre containers prior notice will ensure availability.

Any questions regarding the day, competition etc please contact:

Ross Middleton - rossmiddleton300@gmail.com

RSVP: Would be appreciated. (For catering numbers)
